

Universal Mounting Kit

RFID Solution Accessories

USER ADVANTAGES:

- Allows for wall or pole mounting
- Easily assembled and configured
- Adjustable tilt and swivel angles enable optimal tuning of reader position
- Both indoor and outdoor use

The Universal Mounting Kit (UMK) is a versatile reader bracket that can be used for wall or pole mounting of TagMaster NA's LR-series readers. The UMK is very easy to assemble and configure and is suitable for both indoor and outdoor use. This mounting kit's tilt and swivel angles can be adjusted to any application's specifications enabling optimal tuning of the reader position. The Universal Mounting Kit contains all parts needed for mounting a reader and contains an assembly instruction manual that describes options for configuration and installation of the UMK. See Configuration Options and List of Contents for more information.

SPECIFICATIONS
