

Space Available LED Sign

Dynamic and user-friendly occupancy display for Vehicle Access Control

KEY FEATURES:

- 4-digit, seven-segment display
- Provide number of available spaces
- Indicates area OPEN or FULL status
- Super bright direct-view LEDs
- Built-in automatic dimming
- Designed for Indoor and Outdoor operation
- Multiple mounting options
- Customizable sign face graphics and illumination, and paint color for the frame

The Space Available LED Sign is designed to directly connect to the TagMaster NA's vehicle access control and tracking systems - ACTS Advanced or TrackFlow management applications, working in conjunction with the long-range RFID readers (XT or LR series) and/or the License Plate Recognition camera (CT-45). Multiple signs can be connected and controlled from a single central command.

It provides drivers with real-time visibility of the current space's availability at each location – area, lot, and/or level of the garage, for an easy and fast parking experience while optimizing the traffic flow operation.

Each sign can be custom designed and engineered to your specific requirements. Constructed with a rugged aluminum cabinet and hinged face(s) for easy installation. LED count displays are pre-wired. Available in single- or double-faced configurations, full color graphics and logo branding, and multiple mounting options (wall, ceiling, side, recessed, or post mount).

Specifications

Part Number	S1875
Input Voltage	120-277 VAC - 50/60 Hz (Typ. 21W)
Dimensions	7" H x 18" W x 2.5" D
Weight	4.3 lbs
Interface	Ethernet
Cabinet	Corrosion resistant, extruded all-weather frame, 2.5" deep.
Finish	Duranodic Bronze
Standards	UL/cUL Listed: Listed for wet locations
